

For Reflection and Discussion: 08/26/12

1. What are some cultural examples of idol worship? What are some personal idols? How do these shape you to become more like them?

2. How does Christ reorient our worship? Find Scriptural examples and share personal experiences.

3. In what ways does worship play out in the context of community together (both in “temple” and “homes”)? In what ways are you personally fostering a community of worship?

4. How does our worship influence others and engage non-Christians? Share personal “worship rhythms” that have helped you create a lifestyle of worship. Spend time worshipping Christ together and in prayer.
